

Level 2 Certificate in **Awareness of Bullying in Children and Young People**

Distance Learning Short Course

Course overview

Research has found that over half of children aged 11 to 16 have been bullied about their appearance, with 40% targeted at least once a week. With this in mind, it has become more important than ever to address the issue of bullying amongst children and young people. Bullying takes many forms – physical, verbal, and in more recent years as technology has developed, cyber bullying has increasingly become a problem.

This course aims to increase awareness of the types of bullying that can occur, what factors can create a bully, the legislation surrounding bullying, and how to help an individual who is being bullied.
