

Build confidence

Learn new skills

Get work ready

**Are you 16-24** and want to start a career in **Business or IT?**

If you're not quite sure where to start then we can help with our **NEW Stage 3 Employability programmes.**

## Who we are

With over 20 years' experience delivering **Employability and Modern Apprenticeships** throughout Scotland we have the skill set and knowledge to set your feet firmly on that first rung of your career ladder.

An engaging programme with interactive sessions, learning key skills and exploring some topical issues such as Wellbeing and Social Media, all of which will be extremely useful in your chosen career. Also learn how to create an impressive and stand out CV and gain valuable tips and advice on getting ready for that all important interview.

At the end of the 6 week programme you will have learned valuable key skills for your chosen job and gained work experience, which will not only look great on your CV but can give you the opportunity to enter onto one of our **Modern Apprenticeship programmes**.

Travel allowance will be paid and you could also be eligible for Young Person's Allowance.

**Ready to start your career with us? Get in touch.**
