

## Learning Hub

GP Strategies Apprenticeships' learning hub is an online portal that provides you with access to a wide range of training and resources, to guide and support you through your apprenticeship or traineeship course. It serves three main purposes:

- Enables you to access valuable online learning content throughout your apprenticeship journey including presentations, activity sheets, assignments, glossaries etc.
- Provides a single gateway to third party websites and resources that will support with other areas of the programme, such as ILM illuminate and BKSb.
- Offers information, advice and guidance on a wide range of topics related to your apprenticeship programmes such as FAQ's, technical support, safeguarding and pastoral support.

### Tailored profile

Your individual profile will be tailored to your specific apprenticeship programme, with a supporting curriculum you will work through in bitesize chunks.

### Supports on-programme learning

The sessions and resources have been designed to support you through your on-programme learning as part of your apprenticeship, and have been mapped to the apprenticeship standards they support, so will effectively prepare you for your end point assessment.

### Develops knowledge, skills and behaviours

The content will cover 'what you must know and understand' and the skills you will need to put that knowledge in place. It is split across a series of lessons covering knowledge, skills and behaviours that build sequentially over time.

### Testing and certification

The knowledge you gain will be tested through a series of quizzes, where you will receive a 'Certificate of Completion' to validate your achievements. You can share the certificate with your employer as part of your ongoing Continuing Professional Development (CPD).

Your progress across the programme of learning is tracked within the learning hub, and can be viewed easily via your profile.
