

## Virtual Masterclasses

GP Strategies offers a suite of optional virtual masterclass workshops in the areas of business and management, to complement apprenticeship delivery, and support and enhance existing learning.

We will consult with each of our employers individually to discuss a schedule of masterclasses that best suit the needs of your organisation and employees.

### Delivered by experts

Delivered by professionals in their specific field, the workshops provide expert insight, share knowledge and best practice.

### Virtual delivery

Available in both face to face and virtual format using WebEx, the sessions explore different topics in detail and challenge learners to apply learning to their workplace setting.

### Structure and format

Virtual masterclasses mirror our 'in-class' workshop format to optimise interaction and dialogue. Delivery is split into two x 2-hour sessions, with a part one session in the morning and part two in the afternoon. This makes the learning more accessible and maximises focus and knowledge retention during the session.

Class sizes are capped at 12 delegates to optimise the quality of experience received.

### Masterclass topics

- Personal impact and management of self
- Leading and managing people
- Performance management
- Project management
- Finance
- Change management
- Presentation skills
- Time management and prioritising
- Communication
